- Oil Mist

*Charcoal Filters can be added on to address specific odors

Simple Operation – Effective Results

Particle full air enters both ends of the unit. The air passes through pre-filters rated at MERV 10 and MERV 15 Primary Bag Filters. The clean air is then exhausted out of the middle section.

**Cycles 3,000 CFM
of Air**

- 5 Year Complete Warranty
- Lifting Eye Bolts

**The AF-3000E
Our Industrial Workhorse**

\$1,400 Complete
