- Lifting Eye Bolts

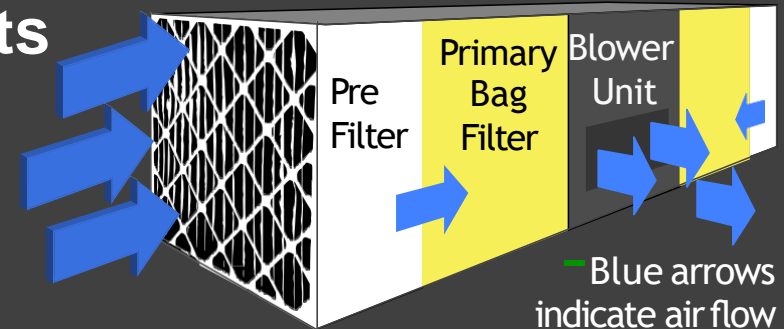

Standard Filter Package Cleans

- Welding Smoke
- Grinding Dust
- Plasma Smoke
- General Carpentry
- Diesel Exhaust
- Light Odors

*Charcoal Filters can be added on to address specific odors

Simple Operation – Effective Results

Particle full air enters both ends of the unit. The air passes through pre-filters rated at MERV 10 and MERV 15 Primary Bag Filters. The clean air is then exhausted out of the middle section.

Blue arrows indicate air flow
